Claims Rejection Under 35 USC - 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-16 and 22-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Kazuyoshi** (JP 2001-004961, see IDS filed 9/28/01)

Kazuyoshi discloses rimless for holding the lens and the temple connected to the lens, whereby the outer face of the lens is disposed between the inner surface of the lens and the first

Art Unit: 2873

temple while in the folded configuration. The difference between the claimed invention and Kazuyoshi is: the claimed invention claims the eyeglasses with frame while the Kazuyoshi disclose the frameless eyeglasses.

Eyeglasses have long been designed with the general objective of protecting the eye of the wearer or correcting the vision of the wearer. Numerous designs of eyeglasses with frame and eyeglasses without frame have been developed, differing only in aesthetic feature. Therefore it would have been obvious to one skilled in the art to make the eyeglasses, of the Kazuyoshi, frame or frameless for the purpose of providing aesthetic feature.

It should be noted that although claims 30-39 are "method claims", the method steps consist of the broad steps of "pivoting", and "positioning" etc and therefore these steps would be obvious satisfied by the apparatus of the reference as modified.

4. Applicant's arguments with respect to claims 1-16 and 22-45 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2873

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication should be directed to Examiner Dang at telephone number (703) 308-0550.
